

221B - SOLUTIONS CONTINUED

90 Boulton & Watt Engine Room

The Dancing Men can be decoded using the Code Wheel to spell out 12.

96 The Code of the Foreman's Hand

The pattern is:

Start at X. Anticlockwise 6 letters, stops at D.

Clockwise 1 letter, stops at C.

Anticlockwise 7 letters, stops at J.

Clockwise 3 letters, stops at G.

The Code Wheel encrypts G to I...

So finally set the wheel to I, which shows BLUE.

99 Lord Baskerville

Letters with a nick on the left offer one of three clues that you can use to thwart Moriarty. Someone has bravely tampered with the torn note and hidden a message in there to help you succeed. When you have all three such clues, revisit the torn note you were given at the start.

102 Coal Tunnel

The Dancing Men can be decoded to spell out 61.
